

## Minnesota Ports Association supports On Board Midwest

*Statewide group joins growing coalition to create a high-speed rail connection between St. Paul and Chicago*

June 30, 2009

The Minnesota Ports Association has unanimously passed a resolution supporting On Board Midwest. The Minnesota Ports Association was created in 1994 to help secure support and funding to maintain and improve the inland rivers and Great Lakes port facilities in Minnesota. The members understand how important it is for Minnesota to have efficient and economical ways to transport goods from Minnesota farmers and manufacturers to worldwide markets.

In addition to bringing new passenger options, a new high-speed rail connection will improve and expand the freight rail capabilities in our region.

### Members of the Minnesota Ports Association

- Saint Paul Port Authority
- Minneapolis Port Authority
- Winona Port Authority
- Red Wing Port Authority
- Duluth Port Authority
